Deedlock AKT4000 series Access Control Kits are designed for easy installation by electricians with minimal electrical installation experience.

A number of single door access control kits are available with either; a proximity reader, a keypad or keypad with proximity choice of securing the door with an electro-magnetic lock or electric release.

Features & Benefits

- AC4221 proximity reader offers 999 users and includes 10 Fobs (AKT4223 or AKT4224)
- Additional AC7101 fobs may be ordered for the proximity reader (AKT4223/AKT4224)
- Options of an electric release or an electro-magnetic lock
- The electric release offers the option of fitting with a rim or mortice plate
- The electro-magnetic lock (minimum holding force 500lbs) is suitable for outward opening doors. (The AEMBR089 bracket is available for inward opening doors)
