

## SBL340.S Mechanical Digital Push Button Lock with Deadbolt

*The SBL340 is a compact and self contained mechanical digital coded lock supplied complete with a 20mm throw dead bolt.*

It is a convenient means of providing security for low to medium traffic areas such as store rooms, workshops, plant rooms and offices. It is ideally used in situations where the door will be unlocked during the day and left open for free passage.

The internal unit has a turn knob which throws and withdraws the dead bolt

Product Code	Description
SBL340.S	Push Button lock with dead lock
