

Mechanical Digital Locks for Touch Bar Panic Hardware

**SBL639.S/P**

Each Digital Lock is supplied with connecting spindle, neoprene seal, bolt-through fixing and cup washers.

This mechanical digital lock is designed to offer a simple and convenient means gaining entry from the outside whilst still providing moderate security for individual doors when using the touch bar exit hardware.

The 'Easy code' Digital Lock is ideal for situations where it is likely that the code may need to be changed on a regular basis by pushing and turning the buttons on the back of the unit. Each button can be switched to either active or inactive to produce a code.

Features & Benefits

- Compact and robust with zinc die cast body
- Suitable for timber doors 35 – 65mm thick
- Suitable for external use having completed 240hr salt spray test to EN1670
- Successfully fire tested to EN1634-1 for use on fire doors up to 1 hour
