

## APB226 Relay 9-30v AC/DC Double pole Relay PCB

The APB226 Relay is a small Relay with Double pole outputs which is suitable for Access Control or Door Entry systems working on 9-30v AC/DC voltages.

It can be used to switch voltages up to 30v dc or 250v ac to a Max 5 amps.

### Technical specifications

- Mini switching relay
- Low current Input at 12VDC
- 9-30V AC/DC
- Current 44mA
- Contact rating 5A @ 250VAC or 30VDC
- 2 x COM- NO-NC
- Dimensions 67 x 50mm

Part Code	Description
APB226	Relay Board 9-30v AC/DC Double pole (5 amp at 30v DC / 250v AC)
